

**JEFFREY NORUK OF SERVO-ROBOT CORP. ELECTED TO THE  
2008 CLASS OF COUNSELORS OF THE AMERICAN WELDING SOCIETY**

**LAS VEGAS, NV, U.S.A. OCTOBER, 2008** - Jeffrey Noruk, President of Servo-Robot Corp., has been elected to the 2008 Class of Counselors of the American Welding Society. The award was presented at FABTECH/AWS in Las Vegas, NV on October 6, 2008.

This election as an AWS Counselor is in recognition for a career of distinguished organizational leadership that has enhanced the image and impact of the welding industry.

Activities have included Chairman of several AWS committees including D8C for Automotive Welding & D16 for Robotics and Automatic Welding, Co-Chair of AWS National and Regional Robotic Welding Conferences, judge for the Skills Olympics/Professional Welder Competition and speaker at a number of educational seminars.

About Servo-Robot Group:

Servo-Robot is a recognized world leader in intelligent welding automation. For over 25 years, we have produced 3-D laser-camera systems and intelligent process control modules for robots and fixed automation for arc and laser welding. Servo-Robot also produces smart hybrid sensing systems for material handling, machine tending, and 3-D robot guidance. Servo-Robot Corp. has been established in the U.S. market since 1995.
